When locked with a key from either side it then can't be unlocked with the lever (day latch) until it's unlocked with the key again from either side. However once locked with a key if the key is then turned back from either side till it clicks this will remove the deadlock function but leave the door latched.

Sliding Door Wheels

The cost of changing the wheels on a **AVERAGE** sliding door ? Is between \$134 and \$160.
 (Understand this is for an **AVERAGE** sliding door. Not all doors are average!) We carry between 40 and 50 different types of wheels so we fit the right wheels in your joinery we don't make one wheel fit everything.

BREAKDOWN OF AVERAGE WHEEL REPLACEMENT:

Average wheels @ \$23.50 X 2 = \$ 47.00

bits and pieces = \$ 6.50

lab min charge = \$ 63.00

=====

\$116.50

GST \$ 17.48

=====

TOTAL \$133.98

WINDOW HANDLES:

PRICED : FROM \$12.00 to \$17.19 each incl. GST plus the LABOUR to fit them which is \$42.00 + GST per hr = \$48.30 MIN Charge 1 HOUR (Note: near the beach some handles need to be drilled off this takes time.)
